OUTDOOR CARE INSTRUCTIONS

OUTDOOR FURNITURE MAINTENANCE INSTRUCTIONS

Covering furniture when not in use is recommended

CAST ALUMINUM & STAINLESS STEEL

Cast aluminum is handcrafted, solid and strong. Aluminum is rust resistant and durable, and a material for most climates and for outdoor use. Stainless Steel is strong, durable and heavy. It is ideal for most climates and outdoor use.

Care Instructions: Regularly wash frames with a mild soap and water solution. Rinse with clean water and dry with a soft cloth. Do not use bleach or strong solvents.

WICKER

Resin wicker is a high quality manmade material which is resistant to mildew, staining and cracking. It is very durable and ideal for most climates.

Care Instructions: Clean regularly by using a soft brush and non-detergent soapy water to loosen any dirt. Use a vacuum to clean up any extra loose debris. Wipe spills with a soft, dry cloth. If deeper cleaning is needed, use a damp cloth with a mild soap in water solution and dry thoroughly.

OUTDOOR CUSHIONS

Care Instructions: Regularly brush off dirt and debris. Spot clean with a damp, white cloth. Blot to remove excess water or liquids. Dry cushions thoroughly by standing cushions on end with zipper end down. Unless otherwise noted, do not machine wash or dry. During inclement weather, store dry cushions inside. Do not wrap in plastic. Do not store with or on furniture.
